

## FN-821CVI

1. Transmission real HD video via Coaxial Cable High resolution .
2. Long distance with reliable transmission , transmission distance over 300m via 75-3 Coaxial Cable.
3. Real-time and high-definition transmission technology
4. Composite video signal

### Technical Specifications

Model	FN-821CVI
Imaging Device	1/3" 1.3Mega CMOS
Number of Pixels	1.0 Mega
Horizontal Resolution	720P
Minimum Illumination	PAL:1280(H)*720(V) NTSC:1280(H)*720(V)
Lens	4mm/6mm/ Optional
S/N Ratio	>60dB
White Balance	Auto
Sync.System	Internal
AGC	Auto
Electronic Shutter	Auto
Gamma Correction	>0.45
Backlight Compensation	Auto
Video Output	<1.0Vp-p/75Ω
System of Signal	PAL/ NTSC
Power Supper	DC12V,2A
Wavelength	850nm
Operation Temperature	-20°C—50°C
View Distance	2PCS Power Array Led, 20-30M
